

EACN

Executive Airlift Communications Network

After 11 September 2001, the Secretary of Defense tasked the Air Force to update senior leader airborne communications systems due to increased requirements, significantly increasing communications capabilities.

EACN serves as a specialized government-unique Internet Service Provider, providing senior leaders the ability to access multiple classification levels of voice, video, and data services from select platforms while in flight.

Senior Leader Command, Control, and

Core technical services for EACN include:

- Gateway Tier 3 Support
- Engineering and System Integration Lab
- Configuration Management
